Client Update Settings

This update includes an update for the Configuration Manager client. You can upgrade your clients immediately, or validate this client in a pre-production collection before you upgrade all your Configuration Manager clients.

Upgrade without validating

Overwrites your current Configuration Manager client package with the new client update. All new client installations and client upgrades use this new client update.

Validate in pre-production collection

Validate the client update on members of the pre-production collection while you keep your production client package intact. Later, you can overwrite the production package using Client Update Options in the Updates and Servicing node of the Configuration Manager console.

Pre-production collection:

System Center Configuration Manager 1706 Tech Preview

Welcome to update 1706 for System Center Configuration Manager Technical Preview. Below you can find information about some of the new features and scenarios that are now available for you to try. You can also view which of the new scenarios you have completed for each feature. [Read more](#) about the latest changes in the Technical Preview build.

Please continue to give us feedback! To report any issues you encounter with the latest functionality included in this Technical Preview, use the [Microsoft Connect](#) website. To request a new feature or enhancement, use the [Configuration Manager UserVoice](#) site.

What's New in 1705

Progress:

10

Azure Active Directory Onboarding

Create a connection between Configuration Manager and Azure Active Directory. Enable Configuration Manager on-premises services like Management Point, or cloud services like Cloud Management Gateway to have the capability to authenticate with device and user identity in Azure Active Directory.

Scenarios:

- In the Administration workspace, Azure Services node, click Configure Azure Services. Then select 'Cloud Management' service type to create a connection with Azure Active Directory and Configuration Manager
