The screenshot shows the 'Add Operating System Upgrade Package Wizard' dialog box open in the foreground. The dialog has a title 'Data Source' and a sub-section 'Browse to the data source for the operating system upgrade package'. It instructs the user to 'Specify the path to the folder that contains the operating system upgrade package.' Below this is a 'Path:' label with a text input field and a 'Browse...' button. At the bottom of the dialog are buttons for '< Previous', 'Next >', 'Summary', and 'Cancel'. In the background, the main SCCM interface is visible, showing the 'Software Library' section with categories like Overview, Application Management, Software Updates, Operating Systems, and Windows 10 Servicing. The 'Operating Systems' category is expanded, showing sub-options like Drivers, Driver Packages, Operating System Images, Operating System Upgrade Packages, Boot Images, Task Sequences, and Virtual Hard Disks. The status bar at the bottom right shows the date and time as '12:09 PM 6/21/2017'.

The screenshot displays the System Center Configuration Manager (SCCM) interface. The main window title is "bj-sccm on btnhd". The top menu includes File, View, VM, Folder Tools, and a connection status message: "System Center Configuration Manager (Connected to BIN - BINHD HQ Site)". Below the menu is a toolbar with icons for creating task sequences, deploying software, and managing assets. The left sidebar lists the "Software Library" with sections like Overview, Application Management, Software Updates, and Operating Systems. The "Operating Systems" section is expanded, showing sub-options such as Drivers, Driver Packages, Operating System Images, Operating System Upgrade Package, Boot Images, Task Sequences, and Virtual Hard Disks. A central dialog box titled "Select Collection" is open, showing a list of "Device Collections" under "Root". It includes a checkbox option to "Hide collections with a member count greater than site's minimum size configuration (100)". A table lists three collections: "All Servers" (4 members), "All Unknown Computers" (2 members), and "All Workstations" (3 members). The "All Workstations" row is highlighted with a red border. At the bottom of the dialog are "OK" and "Cancel" buttons, along with navigation buttons for "Previous", "Next", and "Summary". The status bar at the bottom right shows the system time as 3:15 PM on 6/21/2017.
